

Vedant Vivek Gadre

UI/UX Designer

New Jersey, USA | vedantgadreusa@gmail.com | (551) 307-7773

SUMMARY

UI/UX Designer with 4+ years designing responsive web applications for banking and e-commerce platforms. Skilled in Figma, design systems, component libraries, wireframing, user flows, information architecture, usability testing, and WCAG 2.1 accessibility. Partner closely with Product Owners, Business Analysts, developers, and QA across Agile delivery, supporting design reviews, developer handoff, and production validation. Working knowledge of HTML5, CSS3, Bootstrap, JavaScript, and REST APIs used to validate API driven interfaces.

TECHNICAL SKILLS

Design Tools: Figma, Adobe XD, Sketch, Adobe Photoshop, Adobe Illustrator

UI Design: Design Systems, Component Libraries, Responsive Web Design, Auto Layout, Interactive Prototyping, Visual Design

UX Design: User Research, Wireframing, User Flows, Information Architecture, Journey Mapping, Usability Testing, Heuristic Evaluation, Accessibility (WCAG 2.1)

Collaboration & Handoff: FigJam, Miro, Zeplin, Jira, Confluence, Agile (Scrum), SDLC

Technical Collaboration: HTML5, CSS3, Bootstrap, JavaScript, REST APIs, JSON, Java, Spring Boot, Python, FastAPI

WORK EXPERIENCE

M&T Bank, NY | *UI/UX Designer*

Feb 2025 to Present

- Design high fidelity interfaces in Figma for digital banking features including account dashboards, money transfers, bill payments, transaction history, and profile management, following enterprise design system standards.
- Build reusable UI components, Auto Layout libraries, and design tokens that improved consistency across multiple banking applications and reduced UI rework during development by approximately 20%.
- Produce wireframes, user flows, and interactive prototypes to validate journeys before development, translating business and regulatory requirements gathered with Product Owners and Business Analysts into intuitive designs.
- Run heuristic evaluations, usability testing, and customer feedback reviews that surfaced navigation and accessibility gaps, contributing to an approximate 15% increase in task completion during internal usability testing.
- Apply WCAG 2.1 guidelines across customer facing screens, improving color contrast, keyboard navigation, focus states, and form accessibility within responsive desktop, tablet, and mobile layouts.
- Partner with front end developers through Zeplin handoff and with QA during sprint testing to validate API integrated screens, verifying data mapping, error messages, loading states, and visual consistency before release.
- Collaborate with Python and FastAPI developers to review REST API responses, confirming that account, transaction, payment, and customer data render accurately across digital banking interfaces.
- Maintain the enterprise design system and support Agile ceremonies and post release production issues using Jira, Confluence, FigJam, and Miro.

Infosys, India | *UI Developer*

Jun 2021 to Aug 2023

- Designed product listing, product detail, cart, checkout, and account screens in Figma, converting business requirements into wireframes, mockups, and interactive prototypes for product team review.
- Expanded the company design system with reusable buttons, forms, icons, cards, and navigation components adopted across multiple e-commerce modules.
- Mapped customer journeys with UX designers to simplify product search, filtering, and order placement, iterating on designs from usability feedback and stakeholder reviews during Agile cycles.
- Coordinated with Java Spring Boot teams to understand API contracts and reviewed API driven screens with developers to resolve data display and validation issues identified in QA.
- Prepared handoff assets and documentation in Zeplin and performed visual QA on alignment, spacing, missing assets, and responsive defects, using HTML5, CSS3, and Bootstrap to verify implementation matched approved mockups.

EDUCATION

Master of Science, Computer Science | Pace University, Seidenberg School of CSIS, New York, NY

Bachelor of Engineering, Information Technology | University of Mumbai, Mumbai, India
